- ✓ **Monitor tools deployment**

☐ **Emergency Issue Fix**
- ✓ **Mass block corruptions cause Oracle Database startup problem after hardware power failure.**
- ✓ **Hang! Database unacceptable low performance.**
- ✓ **Lock! Urgent unlock needed**
- ✓ **Sharply increased transactions causing database low performance.**
- ✓ **Root cause analysis**

诗檀软件

PD Advantages

Why Choose ParnassusData?

- Most common integrated product providers cannot undertake the real database maintenance work:
  - ✓ No database file system level block corruption recovery experience
  - ✓ No data recovery batch rescue tool (When database fails to startup)
  - ✓ No Oracle unpublished unlock methods and tuning scripts, APIs
  - ✓ Lack of professional skills and experience, not dare to use key commands
- Excluding Oracle ACS team, **no more than 2 companies** have the real ability to do low-level maintenance in China.
  - ✓ ParnassusData Experts are able to give you final assurance.
- PD can provide Oracle Database full life-cycle services.
